Patented Insulated Doors

June 13, 1939.

METAL CABINET DOOR

2,162,333

Filed Feb. 2, 1938

THE accompanying illustration shows the new type of insulated door designed to eliminate hollow and metallic noises.

These doors are not torch-welded — but ELECTRICALLY SPOT-WELDED down the entire channel as well as across the top and bottom. This type construction removes all possibility of warping. In addition to this scientific treatment, insulation material is placed between two layers of steel, resulting in the production of doors that are entirely free from rattles or other sounds of metal.

The doors are smoothly finished, front and back, thus contributing greatly to their appearance.

Interstate Insulated doors are covered by U. S. Patent No. 2,162,333 as reproduced here. Dealers are cautioned against handling metal cabinets with insulated doors which might be infringements of the Interstate patent. This suggestion is made for the dealers' own protection.

We will protect our patent rights to the full extent of the law.

High Quality — Low Price

INTERSTATE "BUY" WORDS

In presenting our 1940 catalog we point proudly to the many new numbers which have been added to our line.

Improvements in cabinet design, the incorporation of many refinements and modernistic touches, the magnificent chrome upholstered tubular tables and chairs, the colorful porcelain top tables . . . all these features should be important factors in your sales plans throughout the year.

We also call particular attention to the fact that we have acquired exclusive production rights to GRAND SLAM BRIDGE SETS which we are making in a wide range of color combinations.

Now as always, Interstate stresses high quality at a price. This is made possible by the use of specially constructed machines for production on a tremendously large scale.

Keep this catalog handy. Let it be your guide to the best in metal merchandise. Make it available as ready reference when your customers call for Interstate items that are not on your floor.

WATERFALL DESIGN KITCHEN ENSEMBLES

No. 6901

Beautifully Rounded Corners at Top and Bottom

One of the most beautiful units we have ever made. The ensemble will appeal to your most exacting customers. The two side cabinets have six shelf spaces. Rounded recessed black Japanned base. The kitchen base has two shelf spaces. Large cutlery drawer. Round corner deep drawn sliding decorated "Mayo" design stainless porcelain enamel top, 20"x26", with attached back plate. This prevents anything from falling in back or showing open top of base. Handsomely mirrored wall cabinet. Two shelf spaces. This entire unit has insulated doors which will eliminate metallic sounds and add strength. These units on your floor will sell themselves.

**Wall Cabinet May Be Had With Mirrors,
Clear D.S. Glass or Plain Metal Doors.**

Colors: White, Green or Ivory.

Size: Height, 66"; Width, 62"; Depth, 12".

No. 6900

Same as above except has plain white stainless porcelain enamel top, with black edge on kitchen base.

No. 7000

Rounded Top and Bottom Corners

An attractive ensemble for the larger kitchen. All rounded corners. Double door cabinet on left has five shelf spaces. Single door cabinet has six shelf spaces. Kitchen base has sliding stainless porcelain round corner deep drawn top, 20"x26", with back plate. This prevents anything from falling in back or showing open top of base. Two shelf spaces. Large cutlery drawer. Beautifully mirrored wall cabinet with two shelf spaces. Entire ensemble made with insulated doors to eliminate metallic sounds and add to strength of cabinet.

**Wall Cabinet May Be Had With Mirrors,
Clear D.S. Glass or Plain Metal Doors.**

**Colors: White, Ivory, or Green with
Black Japanned Recessed Base.**

Size: Height, 66"; Width, 70"; Depth, 12".

**Double door cabinet and kitchen base
now equipped with two handles.**

MODERN STYLES . . . LOW PRICES

No. 6753

POPULAR PRICED KITCHEN ENSEMBLE

This four piece unit is particularly suitable as a sales promotion ensemble.

Newly designed doors, black base and modernistic chrome plated hardware are added features. Each of the two side cabinets have six shelf spaces and the wall cabinet has two shelf spaces. Kitchen base has a **Stainless Porcelain Enamel** top, size 20"x24". Shelf above base can be used for storing small articles. An attractive ensemble at a price that promotes real sales.

Colors: White, Ivory or Green.

Size: Height, 67"; Width, 53"; Depth, 11".

No. 6755

Same as above with Mayo decorated Stainless Porcelain Enamel top in black or red.

NEW INTERSTATE ITEMS

JULY, 1940

THIS SUPPLEMENT CONTAINS NEW NUMBERS MANUFACTURED BY US SINCE WE ISSUED
OUR 1940 CATALOG IN JANUARY

In this supplementary catalog we present a group of metal products which in quality, utility, and beauty, exemplify the usual high standard set by Interstate.

Tubular chrome upholstered chairs, tables, cabinets, and several specialty numbers serve to enhance a line already distinguished as outstanding in its field.

A great deal of thought has been given to the designing of PROMOTIONAL MERCHANDISE as you will see by a careful examination of this catalog.

We call your attention particularly to the DE LUXE STYLE CABINETS, which embody values unlike any that were ever before presented.

Note also the GRAND SLAM METAL BRIDGE SETS. We consider these card tables and chairs the "ACE" of values in game furniture, offering unusual sales promotion opportunities for dealers.

IMPORTANT! The following numbers are now equipped with insulated doors at no increase in price.

Number	Item	Catalog Page
3336	Kitchen base	26
4432	Kitchen base	40
3632	Kitchen base	22
3344	Kitchen base	26

Size: Height, 63½"; Width, 20"; Depth, 18".

No. 6318

PAR-EXC is unquestionably America's lowest priced, most compact heater. Housed in an attractive, streamlined, steel cabinet in crackle finish. The ideal heater for today's home builder. Double units for large homes and two flats—special unit for stores, factories and other single room spaces.

The floor plan shows the method of installing the PAR-EXC unit in a residence having a heater closet—or utility room—on the same floor. This is a typical heating plan for this type of home. Ducts lead to warm air registers. In the average small home the cold air is returned at the floor.

In larger residences it may be necessary to return cold air from remote rooms through a duct beneath the floor.

PAR-EXC

Modern Oil Fired HEATING PLANT

TESTED BY UNDERWRITERS' LABORATORIES

PAR-EXC is everything its name implies—par excellence in its design, beauty and all around efficient performance.

It is the permanent solution to the problem of the small home owner who demands a dependable heating plant at a fraction of the usual cost.

Not only is the cost of PAR-EXC amazingly low—setting a new standard for oil heater values—but its marvelous performance and economical operation have literally astounded many expert heating engineers.

For new homes, PAR-EXC is enthusiastically recommended. From its modern, streamlined exterior right through to its innermost parts, it is the embodiment of all that is worth while in oil heaters.

For existing homes requiring new heating plants, PAR-EXC is recommended as the ideal replacement unit. For stores, offices, factories, taverns, restaurants, etc., the special PAR-EXC model will answer every heating requirement.

10. Hot Air Outlet

The illustration to the right shows the PAR-EXC unusual burner and combustion design. It is different in essential dimensions and gives unusual burner performance.

Clean, smokeless fire at any stage—High, Intermediate or Low. Combustion chamber is built so that the hot gases return to the bottom before entering flue pipe, thus giving maximum efficiency.

ALL PURPOSE METAL UTILITY STAND

No. 615

FOR OFFICE OR HOME — EASY TO
MOVE AROUND FROM PLACE TO
PLACE

The service it renders can hardly be measured in terms of money. It has so many different uses as to make it an indispensable adjunct wherever a utility table is required.

It is substantially constructed of metal, finished in olive green or walnut grain. By means of **WING NUTS** on two of the casters, the stand can be made to remain stationary. Connecting brace across bottom gives added strength. This brace is so placed as to allow ample leg room when seated at the table.

Its double drop-sides give the top a wide span when open to its full length. One or both sides may be used as needed, and when leaves are down the stand may be rolled out of the way until ready for use.

Shipped knocked down to save on freight.

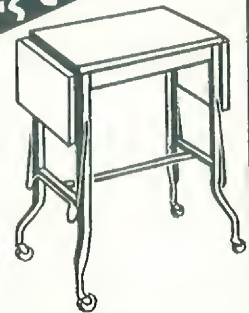

Size: Height, 26 $\frac{1}{4}$ "; Top open, 14x34 $\frac{1}{2}$ ";
Top closed, 14"x18".

Colors: Olive Green or Walnut Gun Grain.

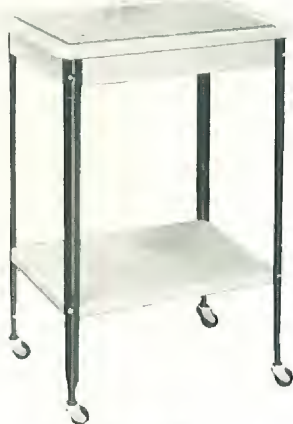

Also in White for Home Use.

IT'S COMPACT!

AN INDISPENSABLE OFFICE APPLIANCE

No. 2720
UTILITY TABLE
WITH CASTERS

Ideal for electric appliances. This is a sensational value. Just the right table for electric mixers, roasters, bread box and other utility purposes so numerous in the kitchen. Has casters on legs. One shelf for storage. Shipped knocked-down, six to the carton. Easy to set up.

Colors: White with Black Legs.
Size: Top, 16"x20"; Height, 27".

No. 2730L
GENERAL UTILITY TABLE WITH LEAVES

A helpful kitchen item that rolls out of the way easily because of casters on legs. Large working space added by the leaves on both sides which may be lowered by moving the heavy wire braces. Shelf for storage underneath. Shipped K.D. one to a carton.

Colors: White with Black Japanned Legs.

Size: Height, 27"; Top, 16"x20";
Leaves 8 $\frac{1}{2}$ "x16" each.

New Ideas in Porch and Lawn Chairs

DISCONTINUED

No. 2010

Newly designed as an outstanding number in porch and lawn chairs. We believe this will be the best selling chair of the season. Drawn seat and back of heavy gauge steel. The design is not a stencil but drawn in the metal. Saddle seat. Perforated so as to shed water when standing outdoors. Combination spring steel and tubular frame with safety C springs. Wood arm rests.

Seat size: $19\frac{1}{2}" \times 18\frac{1}{2}"$; back, 25" high.

Colors: Green, Blue, Orange, Red, White, Ivory, or Canary Yellow.

The baked-on black japanned finish affords protection to light, summer apparel. Frames may be had in colors at slight extra cost, but we do not make the same claims for them regarding protection to clothes.

Our tubular and spring steel frames are enameled with black japanning and baked at very high temperature. Thus we are in position to guarantee the chairs against rust and that they will withstand all outdoor weather conditions. Inasmuch as summer chairs are left outdoors most of the time, our process of finishing makes them absolutely weatherproof.

No. 510

TUBULAR PORCH AND LAWN CHAIR

A chair that will sell itself. Not the cheapest but the best. A real value in style and quality. Design entirely new. All drawn seat and back including the design. Saddle seat for comfort with perforations to shed water. Frame constructed of rail steel tubing for added strength. Feature this number in your summer sales.

Seat size: $19\frac{1}{2}" \times 18\frac{1}{2}"$; back, 25" high.

Colors: Green, Blue, Orange, Red, White, Ivory, or Canary Yellow.

ALL METAL STEP-STOOL

BUILT WITH LOCKING DEVICE THAT
INSURES RIGIDITY. POSITIVELY "FALL-PROOF."

No. 2600

When open, it's a safe, convenient
NON-SKID step ladder. A real and
practical necessity in every home.

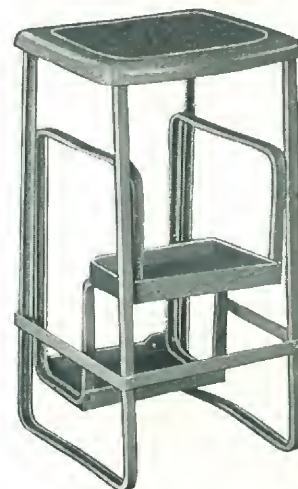

This is the only step-stool made with these improvements
—a distinct achievement toward promoting kitchen safety
—a real safeguard against accidents caused by using
stools and ladders that slip and slide.

This sturdy unit is constructed along an entirely new
design. Illustration below shows how steps fasten to
bottom of stool. Positively foolproof. Cannot close or tilt
while in use. Treaded steps prevent slipping. Made
entirely of heavy gauge metal. One piece drawn top.

Colors: White, Green or Ivory.
Seat Size: 10 $\frac{1}{4}$ x12 $\frac{1}{2}$ "; Height, 23".

Now see how securely it is locked. The ladder cannot collapse no
matter what weight or pressure is used.

Ladder folds up and it
becomes a fine stool.

METAL BEDROOM FURNITURE

Combines the beauty of wood and the durability of steel. Matched Ensemble. May be purchased as a set or individual pieces.

NOTE THE FLEXIBILITY OF THE INTERSTATE RADIATOR COVERS

	Width	Length
No. 1027	9"	Extends 14½" to 26"
No. 1044	9"	Extends 22½" to 42"
No. 1054	9"	Extends 28" to 52"
No. 1072	9"	Extends 37" to 72"
No. 1228	12"	Extends 28" to 52"
No. 1238	12"	Extends 38" to 72"

Each size consists of two sections. Will fit practically all size radiators. Made of heavy gauge steel.

Patent No. 101147

Model No. 20 Half Moon Air Moistener

Note These Six Star Features:

- Has one rigid handle for easy lifting.
- Half round, to promote better circulation of air over the water.
- Fits snugly over radiator coils, will not shift out of place.
- Beauty of design makes it ornamental so that it may be placed in front part of radiator as well as the rear.
- Strongly made, of heavy galvanized steel, finished in gold or silver.
- Will not rust or leak. Low cost. A practical health necessity wherever radiators are used.

INTERSTATE

Patented Air Humidifier

"HALF MOON"

Reg. U. S. Pat. Office

SCIENTIFIC, FREE CIRCULATING AIR PURIFIER

A practical, convenient household utility designed on scientific lines, representing a decided step in advance of anything similar in purpose.

ORDERS AND SERVICE

A well trained office personnel under capable supervision handle orders and other business routine with the interest of our customers always in mind.

No order is too small to receive our prompt attention.

Modern office devices and equipment contribute to the excellent efficiency which characterizes every Interstate transaction.

A corner of our office. This section handles all orders and billing.

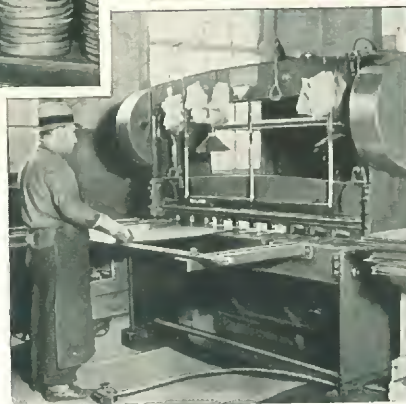

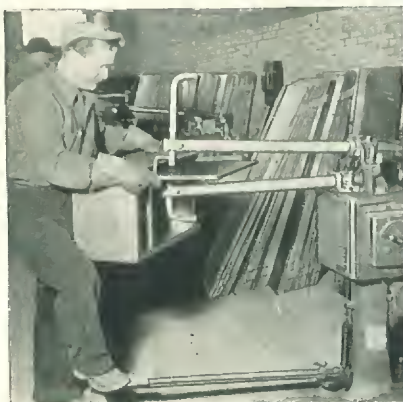

Here is pictured a section of our punch press department. These presses are used to draw out complete parts, such as tops, shelves, bottoms, etc. Large scale production enables us to reduce manufacturing costs to the minimum.

This illustration is one of our large size press brakes. These machines are set with dies which form the larger parts such as doors, sides and backs. The press brake is operated automatically, performing a complete operation with each stroke of the machine. Each machine is set for a different part.

SPOT WELDER

We operate a battery of spot welders, all adjusted for various parts. Electric spot welding fuses all parts of cabinet together into one unit.

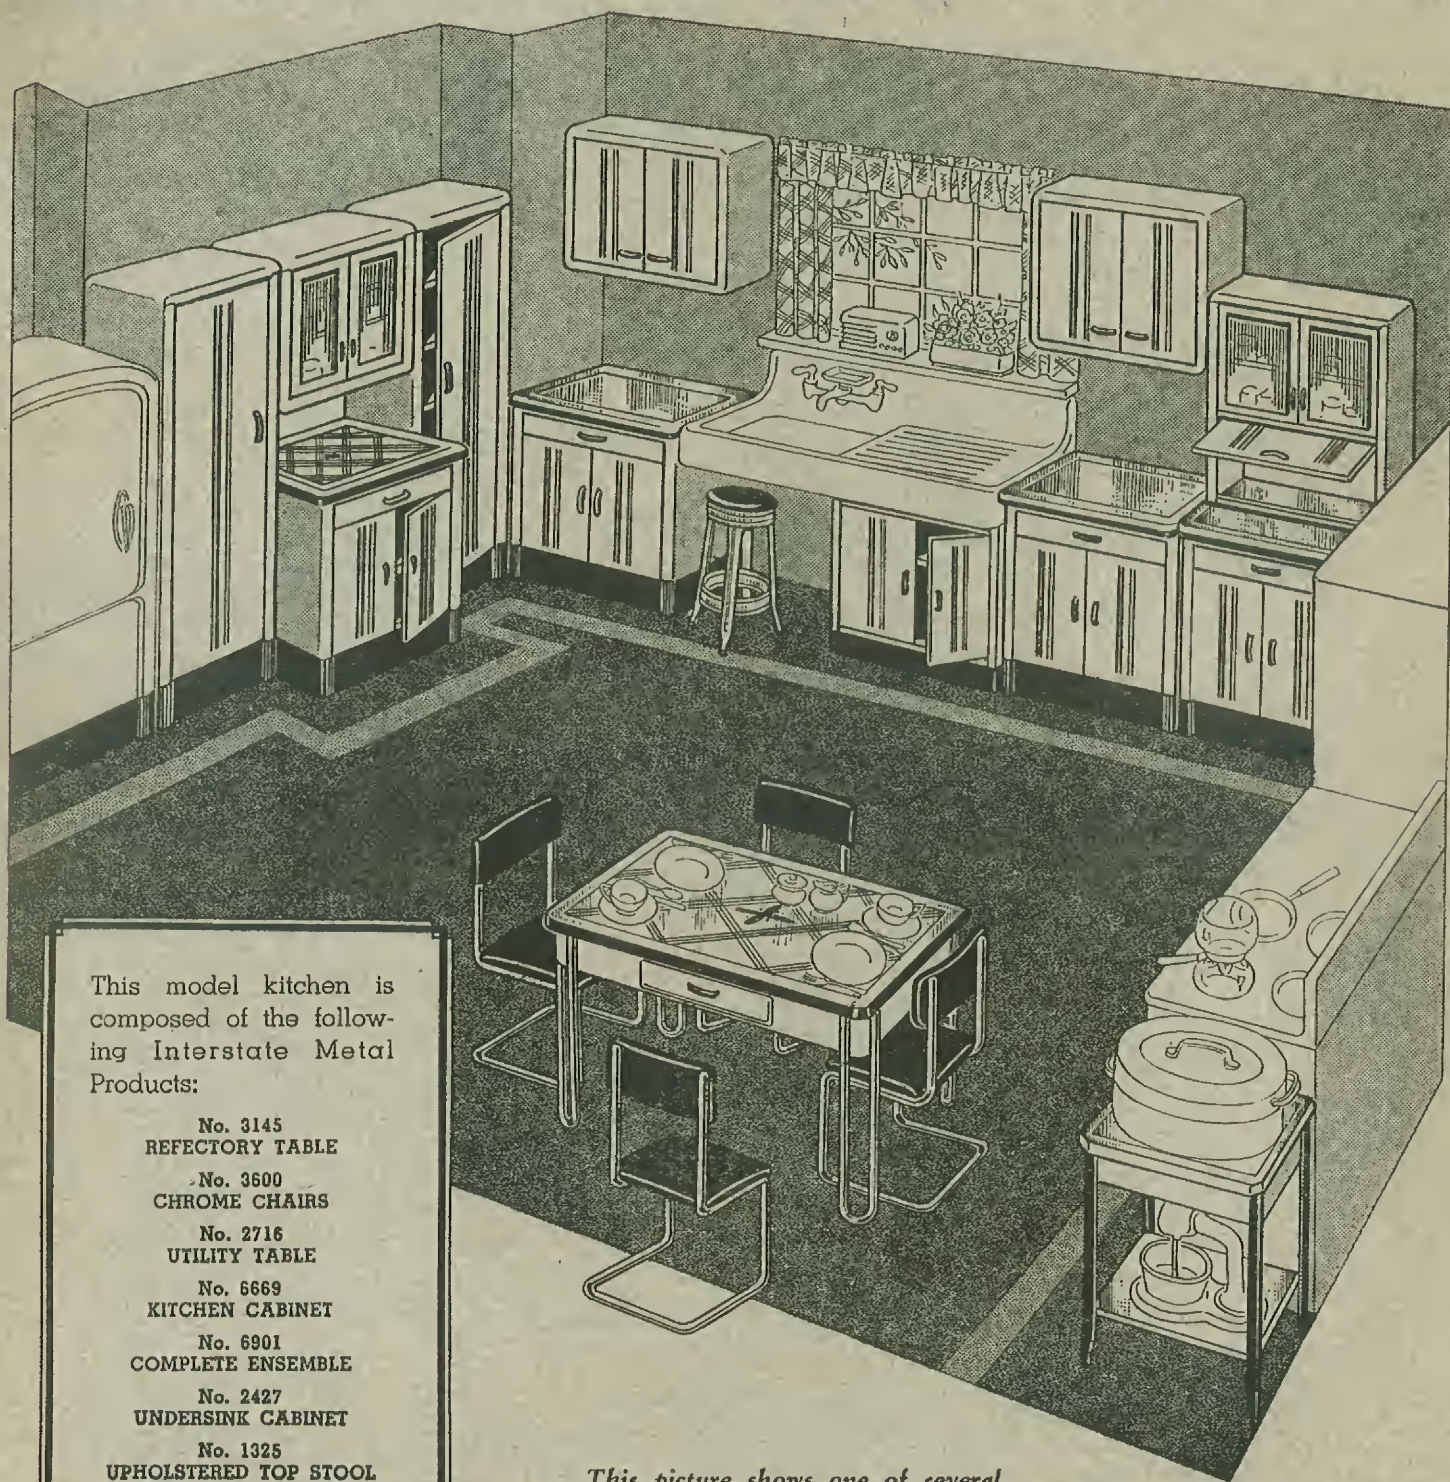

SHEAR

This is one of our electrically operated shears, used for cutting sheets of steel to various sizes. Geared up for high speed production.

From the original design to the finished article, every Interstate product is produced in our plant, under expert supervision.
